

# NEW

# DIN RAIL GUIDE WITH BACKWARDS SUPPORT

## GENERAL CHARACTERISTICS

Industrial equipments and accessories need specific supporting systems. The new CCS industrial support 4U 19" totally satisfies these requirements. Increased depth and height, DIN guide for a max of 24 modules and loopholes for an easy passage of cables are the main features of this new product.

**INCREASED DEPTH**

Thanks to the depth of 150 mm, the new support makes the containment of deep equipments easier avoiding the withdraw of the 19" uprights.

**HEIGHT 4U**

The 4 units height make the installation of equipments with height till 177 mm possible, by granting at the same time an adequate protection of the connections.

**DIN GUIDE SUPPORT**

With a length of 432 mm, it can lodge up to 24 modules.

**CABLES INLET**

The numerous loopholes allow the passage of the cables through the panel thus performing a neat cabling management.
